Made entirely from the milk of grass-grazed cows. The milk is split into curds and whey. The curds go to make cheese and the whey, which has a very high sugar content, is fermented into a beer. A...

## Tasting Note

Made entirely from the milk of grass-grazed cows. The milk is split into curds and whey. The curds go to make cheese and the whey, which has a very high sugar content, is fermented into a beer. A special yeast that can thrive in a lactic environment is used. The vodka is then triple filtered and finished, before being hand bottled.

## Full breakdown

Product Code: 00031091  
Country: England  
ABV: 40%  
Bottle Size: 70cl
